

# HEAVY DUTY RUBBER SAFETY PLUGS & CONNECTORS

## Features

- Units are rewirable to enable retro fitting to existing tools. (Full wiring instructions are supplied with each unit).
- Highly resistant to crushing by commercial vehicles.
- Cord Clamp adapts to various cord diameters and provides strong, safe anchorage.
- Sealing Gland at chord entrance of units to minimise water access.
- Protective Bumper on Connector prevents shorting onto aluminium ladders and keeps plug above damp floor surfaces.

| Product Code | Description      | Current Rating | Standards   | Minimum Order Quantity |
